MUSTAFA, DAWOODI
SOFTWARE AUTOMATION ENGINEER

TECHNICAL SKILLS

Testing Tools :SeleniumIDE/WebDriver
Languages: JAVA, XML, SQL
Web Technologies: HTML, XML, CSS

Test Framework: Junit, TestNG, Data
Driven Framework,Cucumber.

Build Tool: Maven
Processes: Agile-Scrum, Waterfall JIRA
Databases:PostgreSQL, Oracle,MS Ex
Operating Systems:Windows (7-11)
Mac OS, Linux

About Me

I'm Mustafa, and I'm a professional SDET. I've been in the software automation engineering industry for about 4 years now. I've worked on various types of projects with amazing people,and my goal has always been to contribute terrific quality work to whatever company I work with.I'm a much more quick learner than most people, I have the ability to learn things in the least amount of time possible, and always passionate to further my wisdom and knowledge in any required industry.

Professional Summary
Software Automation Engineer

• Over 4 years of experience in Information Technology, with extensive focus on Software Quality Assurance, proficiency in testingWeb-based applications, , and a good experience in Core Java OOPs concepts.

• Extensive working experience in all phases of Software Development Life Cycle (SDLC), and its methodologies such as Agile, SCRUM Waterfall Model. Strong Java skills with experience on Selenium WebDriver/IDE for developing automation test scripts for web-based applications.

• Sound knowledge on Junit, TestNG framework for Unit testing, Maven for Project building.

• Developed Test Scriptsto implement Test Cases, Test Scenarios, and features for BDD(Behavior Driven Development) using Cucumber.

• Experienced in working on Selenium WebDrive automation script in Java for Page • Object Model (POM). Used testing annotations to group the test method. Proficient in using test automation tools such as Selenium WebDrive to develop • automation testing scripts for web and client-server applications. Professional expertise in Smoke Testing, backed end Testing, Black-Box Testing, UserAcceptance Testing (UAT), Functional Testing, Positive/Negative Testing, Regression Testing, and UI Validation.

Mustafa. Dawoodi

QA Automation Engineer

● ◉ ● ◉ ● ◉ ● ◉ ● ◉

Geico Insurance Chevy Chase, MD April 2018 – May 2020, Test Automatin Engineer

Experiences

• Developed Test Cases, use cases, and Automation test scripts, Other activities included set execution reports and generation in accordance with Quality Assurance best practices

Experience with Postman tool for Manual Testing API Rest Request

- Experience on Core Java, OOPS concepts
- Responsible for writing and maintaining Selenium WebDrive scripts for regression and functional testing using data-driven framework.
- Developed test code in Java language using Selenium WebDrive and TestNG framework
- Involved in design and implementation of Selenium WebDrive automation framework for smoke and regression test suites (TestNG and Maven)
- Utilize CSS selectors, IDs, andXPathsto locate elements on Web pages
- Involved in designing automation framework to be used in UI testing with Selenium WebDrive.
- Reviewed database test cases according to assigned Requirements to validate reports by retrieving data with SQL queries from the oracle database
- Performed End-to-End testing of data to check data integrity using SQL queries
- Participate in Agile Scrum methodology and attend Daily Scrum, Sprint Grooming, and Sprint Planning and Sprint Review meetings

Environment

- TDD, Selenium WebDrive, Java, TestNG, Jenkins, SQL, Maven, HTML, XPath, Git & GitHub, Windows 7, Oracle SQL Developer, MS Office suite, JIRA, SQL,SDLC, STLC, AGILE/Scrum, XML, REST, JSON
- Browser: Firefox and IE. Core Java

Environment Involved

BDD, Selenium WebDrive, Jenkins, Maven, Apache-POL, Cucumber (BDD),Gerkin, OracleDB, Eclipse, XML, HTML, SQL, XPath, Oracle SQL Developer, MS OfficeSuite, SDLC, STLC, Json, Windows XP, 8,10, Browsers: Chrome,Firefox, IE, and Core Java

Geico Insurance Chevy Chase, MD
June 2020 – July 2021
QA (BDD) Automation Engineer

- Involved in building automation framework from scratch using Selenium WebDrive, JAVA, and Cucumber (BDD)
- Developed Automation framework implementing Page Object Model, using JAVA, Selenium Webdrive, and Cucumber.
- Performed BDD (Behavior Driven Development) using Cucumber Features, Scenarios, and Step Definition in Gherkinformat
- Performed User Acceptance testing (UAT) exclusively in an agile environment
- Designed the test scripts and analyzed the results in various levels of the applications including integration, regression, functional, and acceptance testingusing Selenium.
- Implemented Regression and Smoke test execution as discrete step of the deployment process by using Selenium WebDrive
- Delivered back-endtesting for data validation using SQL in Oracle and executed SQL Queries on database tables to verify the DB.
- Performed UI, Functional, and Regression testing by automated using Selenium WebDriver, Cucumber Maven, and Jenkins.
- Integrated Automation scripts (Selenium WebDrive API) in Continuous Integration tools (Jenkins) for nightly consignment run of the Script.

Geico Insurance Chevy Chase, MD
Auguest 2021 – May 2022
Manual QA Test Engineer

Analyzed business requirements, documented business requirements specifications, and wrote Test Plans, Test Cases.
Created and modified written test procedures, test cases, test data, and other test-related materials using approved softwaretools.

Performed data accuracy, data validation, and data integrity testing by querying the database using SQL queries to check the data tableon the server.
Worked Extensively with Business Analysts and Developers to discuss the defects and their fixes.

Worked with development teams to investigate and correct bugs and deficiencies based on testingresults and was involved in defect trackingand resolving production logs.
Actively participated in daily Scrum meetings and was involved in bi- weekly Sprint releases

Environment

- Agile, XML, HTML, Internet Explorer, Google Chrome, Safari, Mozilla Firefox,JIRA, Oracle, Windows, MS Office, SQL,Oracle SQL Developer, MS Excel.
